#### § 120.212

Act is \$350,000. SBA has established an administrative limit of \$150,000 for direct loans. The AA/FA may authorize acceptance of an application up to the statutory limit.

- (b) The statutory limit for direct loans made under the authority of section 7(a)(20) is \$750,000. SBA has established an administrative limit of \$150,000. The Associate Administrator for Minority Enterprise Development may authorize the acceptance of an application that exceeds the administrative limit.
- (c) The statutory limit on SBA's portion of an immediate participation loan is \$350,000. The administrative limit is the lesser of 75 percent of the loan or \$150,000. The AA/FA may authorize exceptions to the administrative limit up to \$350,000.

### §120.212 What limits are there on loan maturities?

The term of a loan shall be:

- (a) The shortest appropriate term, depending upon the Borrower's ability to repay;
- (b) Ten years or less, unless it finances or refinances real estate or equipment with a useful life exceeding ten years; and
- (c) A maximum of 25 years, including extensions. (A portion of a loan used to acquire or improve real property may have a term of 25 years plus an additional period needed to complete the construction or improvements.)

# §120.213 What fixed interest rates may a Lender charge?

- (a) Fixed Rates for Guaranteed Loans. A loan may have a reasonable fixed interest rate. SBA periodically publishes the maximum allowable rate in the FEDERAL REGISTER.
- (b) *Direct loans.* A statutory formula based on the cost of money to the Federal government determines the interest rate on direct loans. SBA publishes the rate periodically in the FEDERAL REGISTER.

# §120.214 What conditions apply for variable interest rates?

A Lender may use a variable rate of interest, upon SBA's approval. SBA's maximum allowable rates apply only to the initial rate on the date SBA re-

ceived the loan application. SBA shall approve the use of a variable interest rate under the following conditions:

- (a) Frequency. The first change may occur on the first calendar day of the month following initial disbursement, using the base rate (see paragraph (c) of this section) in effect on the first business day of the month. After that, changes may occur no more often than monthly.
- (b) Range of fluctuation. The amount of fluctuation shall be equal to the movement in the base rate. The difference between the initial rate and the ceiling rate may be no greater than the difference between the initial rate and the floor rate.
- (c) *Base rate*. The base rate shall be the prime rate in effect on the first business day of the month, printed in a national financial newspaper published each business day, or the SBA Optional Peg Rate which SBA publishes quarterly in the FEDERAL REGISTER.
- (d) Maturities under 7 years. For loans with maturities under seven years, the maximum interest rate shall not exceed two and one-quarter (2 1/4) percentage points over the base rate.
- (e) Maturities of 7 years or more. For loans with maturities of seven or more years, the maximum interest rate shall not exceed two and three-quarters (2 3/4) percentage points over the base rate.
- (f) Amortization. Initial amortization of principal and interest may be recomputed and reassessed as interest rates fluctuate, as directed by SBA. With prior approval of SBA, the Lender may use certain other amortization methods, except that SBA does not allow balloon payments.

# §120.215 What interest rates apply to smaller loans?

For a loan over \$25,000 but not exceeding \$50,000, the interest rate may be one percent more than the maximum interest rate described above. For a loan of \$25,000 or less, the maximum interest rate described above may be increased by two percentage points.
